

## **TABLE DESIGN**

### **1. Login**

Description : This table contains the information such as username and password.

Primary key: lid

| Fieldname | Datatype | Size | Description  |
|-----------|----------|------|--------------|
| lid       | Int      |      | Login id     |
| username  | Varchar  | 50   | User name    |
| password  | Varchar  | 50   | password     |
| status    | Int      |      | Status       |
| role      | Varchar  | 50   | Role of user |

**Table 1: tbl\_Login**

### **2. USER REGISTRATION**

Description: This table contain details about the users

Primary Key: custid

Foreign Key: did, cityid, lid

| Field Name | Data Type | Size | Description      |
|------------|-----------|------|------------------|
| custid     | Int       |      | User Id          |
| name       | Varchar   | 50   | Name of the user |
| address    | Varchar   | 50   | Address          |
| did        | Int       |      | District Id      |
| cityid     | Int       |      | City Id          |
| gender     | Varchar   | 50   | Gender           |
| mobilenno  | Big Int   |      | Mobile Number    |
| emailid    | Varchar   | 50   | Email Id         |
| lid        | Int       |      | Login Id         |

**Table 2: tbl\_userreg**

### 3. COMPANY REGISTRATION

Description: This table contain details about the company.

Primary Key: companyid

Foreign Key: did, cityid, lid

| Field Name  | Data Type | Size | Description   |
|-------------|-----------|------|---------------|
| companyid   | Int       |      | Company Id    |
| companyname | Varchar   | 50   | Company Name  |
| address     | varchar   | 50   | Address       |
| did         | Int       |      | District Id   |
| cityid      | Int       |      | City Id       |
| emailid     | Varchar   | 50   | Email Id      |
| mobilenno   | Big Int   |      | Mobile Number |
| lid         | Int       |      | Login Id      |

**Table 3: tbl\_companyreg**

### 4. DISTRICT

Description: This table contain the names of the district.

Primary Key: did

| Field Name | Data Type | Size | Description   |
|------------|-----------|------|---------------|
| did        | Int       |      | District Id   |
| dname      | varchar   | 50   | District Name |

**Table 4: tbl\_district**

### 5. CITY

Description: This table contain the names of the cities.

Primary Key: cityid

Foreign Key: did

| Field Name | Data Type | Size | Description |
|------------|-----------|------|-------------|
| cityid     | Int       |      | City Id     |
| did        | Int       |      | District Id |
| cityname   | Varchar   | 50   | City        |

**Table 5: tbl\_city**

## 6. FEEDBACK

Description: This table contain the Feedback given by the user.

Primary Key: fld

Foreign Key: lid

| Field Name | Data Type | Size | Description    |
|------------|-----------|------|----------------|
| fld        | int       |      | Feedback Id    |
| feedback   | varchar   | 50   | Users Feedback |
| lid        | Int       |      | Login Id       |

**Table 6: tbl\_feedback**

## 7. EVENT

Description: This table contain the Event type given by the admin.

Primary Key: eventid

| Field Name | Data Type | Size | Description |
|------------|-----------|------|-------------|
| eventid    | Int       |      | Event Id    |
| eventtype  | Varchar   | 50   | Event Type  |

**Table 7: tbl\_event**

## 8. FOOD TYPE

Description: This table contain the Food Type given by the admin.

Primary Key: foodtypeid

| Field Name | Data Type | Size | Description  |
|------------|-----------|------|--------------|
| foodtypeid | Int       |      | Food Type Id |
| foodtype   | Varchar   | 50   | Food Type    |

**Table 8: tbl\_fooditems**

## 9. FOOD DETAILS

Description: This table contain the Food Details given by the company.

Primary Key: foodid

Foreign Key: companyid

| Field Name | Data Type | Size | Description |
|------------|-----------|------|-------------|
| foodid     | Int       |      | Food Id     |
| companyid  | Int       |      | Company Id  |
| foodtype   | Varchar   | 50   | Food Type   |
| mealtype   | Varchar   | 50   | Meal Type   |
| foodcost   | Big Int   |      | Food Cost   |

**Table 9: tbl\_food**

## 10. PHOTO PER-PAGE

Description: This table contain the Photo Per-Page Details given by the admin.

Primary Key: photoperpageId

| Field Name     | Data Type | Size | Description       |
|----------------|-----------|------|-------------------|
| photoperpageId | Int       |      | Photo Per-Page Id |
| photoperpage   | Big Int   |      | Photo Per-Page    |

**Table 10: tbl\_photoperpage**

## 11. PHOTO DETAILS

Description: This table contain the Photo Details given by the company.

Primary Key: photoId

Foreign Key: companyid

| Field Name   | Data Type | Size | Description    |
|--------------|-----------|------|----------------|
| photoId      | Int       |      | Photo Id       |
| companyid    | Int       |      | Company Id     |
| photoperpage | Big Int   |      | Photo Per-Page |
| photocost    | Big Int   |      | Photo Cost     |

**Table 11: tbl\_photo**

## 12. VIDEO PER-HOUR

Description: This table contain the Video Per-Hour Details given by the admin.

Primary Key: videoperhourId

| Field Name     | Data Type | Size | Description       |
|----------------|-----------|------|-------------------|
| videoperhourId | Int       |      | Video Per-Hour Id |
| videoperhour   | Big Int   |      | Video Per-Hour    |

**Table 12: tbl\_videoperhour**

## 13. VIDEO DETAILS

Description: This table contain the Video Details given by the company.

Primary Key: videoId

Foreign Key: companyId

| Field Name   | Data Type | Size | Description    |
|--------------|-----------|------|----------------|
| videoId      | Int       |      | Video Id       |
| companyId    | Int       |      | Company Id     |
| videoperhour | Big Int   |      | Video Per-Hour |
| Video cost   | Big Int   |      | Video Cost     |

**Table 13: tbl\_video**

## 14. VENUE DETAILS

Description: This table contain the Venue Details given by the company.

Primary Key: venueId

Foreign Key: companyId, did, cityId

| Field Name | Data Type | Size | Description |
|------------|-----------|------|-------------|
| venueId    | Int       |      | Venue Id    |
| companyId  | Int       |      | Company Id  |
| did        | Int       |      | District Id |
| cityId     | Int       |      | City Id     |
| venueplace | Varchar   | 50   | Venue Place |
| cost       | Big Int   |      | Venue Cost  |

**Table 14: tbl\_ven**

## 15. DECORATION DETAILS

Description: This table contain the Decoration Details given by the company.

Primary Key: decorationId

Foreign Key: companyid

| Field Name   | Data Type | Size | Description      |
|--------------|-----------|------|------------------|
| decorationId |           |      | Decoration Id    |
| companyid    | Int       |      | Company Id       |
